The Ecumenical Theological Research Fraternity in Israel is so pleased to host this lecture and discussion by Zoom with Ronny Reich the legendary Israeli archaeologist, field excavator, and esteemed scholar of the ancient remains of Jerusalem.

The City of David is central to biblical research and understanding of the spiritual history of ancient Israel. The history and culture of ancient Jerusalem is so much better understood in the light of recent disciplined excavations. Discoveries in the City of David give meaningful insight from archaeology and material remains.

Please plan to participate in this lecture. Set your alarm on your phone so that you will not miss this opportunity to hear and to interact with Ronny Reich.

You are very welcome to join this lecture which will be illuminated by a lively Power Point Presentation.

Fraternally Yours,
