

The Ecumenical Theological Research Fraternity in Israel invites you to a lecture in the 2024-25 series entitled "Archaeology, Theology and the Bible."

# **In Memory of Professor Adam Zertal: The Mystery of the Ancient Israelite Foot Structures**

**Aaron Lipkin**

Bible Scholar

Zoom Webinar 27 March 2025, 20:00 Israel Time

It is my great honor and privilege to invite you to participate in the upcoming Ecumenical Theological Research Fraternity in Israel's webinar lecture.

This presentation promises to be a very stimulating and cutting edge analysis of archaeological and material finds relating to the conquest and settlement period of Israel's history. The discussion of the archaeological evidence will invite fresh analysis, new perspectives, and active discussion. Please do not miss this lecture! Set the alarm on your phone and plan to join us by zoom!

Aaron Lipkin is an Israeli Bible scholar who specializes in archaeology of Israel and lectures in many churches, synagogues, university classes, TV and radio stations. Aaron is also a film maker and has created several videos that incorporate Biblical text, Archaeology, the geography of Israel, and stunning drone videos. He is a member of the Manasseh Hill Country Survey team founded by Prof. Adam Zertal of the Haifa University.

Aaron presented a lecture for the ETRFI on the material remains and inscriptional evidence of the Israelite altar discovered on Mount Ebal. The lecture on the Altar of Joshua son of Nun was presented for the ETRFI's Webinar on Nov. 20th 2024. This is the follow up lecture everyone has been wanting to hear. I had the privilege of visiting the Israelite foot structure sites with Aaron.

I am looking forward to this presentation which will highlight the life and the rich legacy of Prof. Adam Zertal as well as connect the physical archaeological remains and the geographical setting of the land with the Bible. Aaron gives you the factual evidence, the setting in life, and the cultural application which makes you feel like you are with him there on location in Israel.

Fraternally Yours,

Brad H. Young, PhD  
ETRFI President
